The Road and Bridge Committee presented the following report:

To the Honorable, The Chairman and the Members of the Board of Supervisors of McLean County, Illinois.

Gentlemen:

We, the undersigned, Members of the Road and Bridge Committee and Members of the Special Road and Bridge Committee would respectfully report to your Honorable Body that pursuant to the call of Mr. Enlow, Chairman of this Board we held a meeting some three weeks ago with reference to the Haynes Crossing.

At that time the States Attorney was present and informed the Committee that in pursuance to an order entered by the Illinois Commerce Commission over a year ago providing with reference to said crossing. The County of McLean, in the Town of Bloomington should bear all the expense and do all the work in connection with the excavation for the improvement except such as necessary to be done by the road and the building of the structure of the subway together with the grading and surfacing of the highway, the installation of the drainage system and the acquisition of additional land necessary to divert Shirley Road to the intersection. The Commission does not at this time make any division of this expense between the County of McLean and the Town of Bloomington. In event that these parties cannot agree upon the division to be made the Commissioner will pass further order making such apportionment.

That pursuant to said order the Town of Bloomington had filed with said Commission a petition asking for a division; that the case had been set for trial and that the States Attorney interviewed witnesses with reference to what they would testify to on the division of the cost between the County of McLean and the Town of Bloomington, that most of the witnesses reported to the States Attorney they would say that "the County should pay from 75 to 80 per cent of the cost and the Town of Bloomington the balance" that after consultation with the Chairman of the Board and also consultation with Mr. Rader, Attorney for the Town of Bloomington, it was decided it would be to the best interests of the County to save further expense if they would enter into a stipulation providing that the County pay 85 per cent of the cost and the Town of Bloomington the balance, that the County of McLean have charge of the work and when completed the Town of Bloomington would pay to the County 15 per cent of the cost thereof; that a motion was made and duly passed by the two Committies instructing the States Attorney to sign said Stipulation.

We therefore, recommend to your Honorable Body that action of the Road and Bridge Committee and the Special Road and Bridge Committee in this matter be approved by a resolution duly passed by this Board at this time.

Dated at Bloomington, Illinois, the 7th day of March, A. D. 1922. Parke Enlow, C. R. Ewins, Chas. F. Ross, J. Bozarth, E. M. Merritt, W. E. Rayburn, C. C. Wagner. Which was adopted.

The following stipulation was presented:

State of Illinois, Illinois Commerce Commission, County of McLean vs Chicago & Alton Railroad Company $6456.

It is hereby stipulated and agreed by and between the Township of Bloomington by William R. Bach, its Attorney and the County of Mc Lean by Lester H. Martin, States Attorney, its Attorney, that in apportioning the cost of that portion of the work required to be done by both the said County and said Township, the County of McLean will bear 85 per cent thereof and the Township of Bloomington will bear 15 per cent thereof.

That County of McLean will proceed to let all contracts that may be

854443

necessary to fully perform all that portion of the work to be done by both the said County and the said Township, consulting with the said Township authorities from time to time in reference thereto and that the Township will upon completion of the work, pay to said County its 15 per cent of said construction cost. County of McLean, Illinois. By Lester H. Martin, States Attorney; Its Attorney; Township of Bloomington, Illinois; By W. R. Bach, Its Attorney. Which was adopted.

A report signed by members of the Grand Jury was presented requesting the Board to give the States Attorney the right to hire a special investigator to work out of his office when necessary. Lester H. Martin's bill for $2121.78 for money spent for investigation of crime was presented.

The States Attorney presented the following request:

We are going to ask the Board at this time to set aside a fund of $2,500 to enable the States Attorney's Office to make proper investigation and ask you to authorize the County Clerk to issue vouches covering these items of expenditures as they are made upon the approval of such vouchers by our office.

The February Grand Jury after an investigation into violations of law have recommended to your Honorable Body the employment of an Investigator for the States Attorney's office, which recommendation we hereto attach.

Sincerely yours,
Lester H. Martin,
States Attorney

Mr. Mohr moved that the foregoing request be adopted. Which was carried.

WHEREAS, It appears from the records of the various real estate transfers in this and other Counties that a large amount of money is being loaned through trustees, and

WHEREAS, It appears from the records of the Assessors and the Board of Review, that a large percent of this wealth escapes taxation thereby placing an unjust burden of taxation upon the real estate and tangible property of the State, and

WHEREAS, we believe that all property and wealth should bear its just portion of the expense of maintaining the various branches of our Government,

Dr. Bayler, the Federal Veterinarian, in charge of the testing started in Mt. Hope township soon after the first of the year. It has been necessary for him to spend several weeks in miscellaneous testing in diffenent parts of the county. This miscellaneous testing included the testing of accredited herds and herds that were in line to be accredited. The bad roads of February and March slowed up the work considerably as it was necessary to use a team to cover the territory to be tested. Cattle were not only tested in the country but in the cities and villages. While testing Bloomington township many cattle were also tested in the township of the city of Bloomington. This work has practically received the unanimous endorsement of the owners of cattle tested. In only two isolated cases has there been any objection to the condemnation of reactors. Your committee feels that this endorsement alone bespeaks the success of the work.

On July 1, 1923 the Department of Agriculture withdraws the Federal Veterinarian from this work and it then becomes necessary for the Board of Supervisors to engage an accredited veterinarian that will be approved by the Bureau of Animal Industry of the Department of Agriculture at a salary not to exceed $2,500 per annum and also to enter into the foregoing agreement.

Co-Operative Agreement Between the County of McLean and the Illinois State Department of Agriculture and the U. S. Department of Agriculture for the Control and Eradication of Bovine Tuberculosis

WHEREAS: The bureau of Animal Industry of the United States Department of Agriculture, for the purpose of improving the dairy and beef herds of cattle in Illinois encouraging recognition of the importance of maintaining herds of such cattle free from tuberculosis and promoting the interchange of healthy cattle, propose, so far as available funds permit to cooperate with the Breeders of cattle by assisting them to eradicate tuberculosis from their herds and to maintain officially tuberculosis-free accredited herds.

NOW THEREFORE, In consideration of receiving assistance from the U. S. Bureau of Animal Industry and the Illinois Department of Agriculture along the lines and for the purpose specified, We the Board of Supervisors of McLean County, State of Illinois do hereby agree to co-operate with the said Bureau and State Officials upon the following terms:

1. The Board of Supervisors of McLean County State of Illinois, do hereby agree to pay the salary of a regular State Veterinary Inspector who shall devote his entire time to the work of tuberculosis eradication in said County and they further agree to pay all necessary expenses incurred by said Veterinarian in the discharge of his official duties, in twelve monthly installments, and ... automobile transportation of co-operating Inspector, limited to the amount of the County appropriation.

2. Said Veterinarian must be an accredited veterinarian and authorized by the Illinois State Department of Agriculture to do and perform the duties of State Inspector under the direction and subject to the Rules and Regulations of said Department and the Bureau of Animal Industry, U. S. Department of Agriculture, and the work under the direct jurisdiction of the Inspector in charge of Tuberculosis Eradication Work 316 Exchange Bldg. Union Stock Yards, Chicago, Ill.

3. The U. S. Bureau of Animal Industry and the Illinois Department of Agriculture agree to furnish all necessary tuberculin blank forms etc., required to be used by the Inspector in his official capacity. The Board of Supervisors are requested to furnish the Ear Tags used for tagging cattle as a means of identification. This tag to be agreeable to the Departments.

For the Board of Supervisors of McLean County

Chairman _____ Clerk _____

For the State Department of Agriculture.

Director _____ Chief Vet. _____

For the U. S. Bureau of Animal Industry.

Inspector in Charge _____

Your Committee has worked in absolute harmony with a similar Committee from the Farm Bureau. The Farm Bureau has been instrumental in signing up the owners of cattle in the various townships and has in fact done all the clerical work besides arranging for transportation of the veterinarians.

There are now several townships signed up and waiting to be tested. The veterinarian upon completing his work in one township goes next to the township that has the greatest percentage of owners signed and ready for the test.

The Department of Agriculture does not officially recognize Farm Bureaus but places the responsibility with the Boards of Supervisors. This is explained in the following excerpt from a communication from the Inspector in charge:

"The Department of Agriculture has but one policy under which this work is extended to Counties in Illinois and that is covered by the Co-operative Agreement. This work is not a project of the Farm Bureau but interests every one within the County, whether consumer or producer, consequently the fund to carry on same is raised through an appropriation made by the Board of Supervisors. We want to co-operate with every organization within the County but must adhere to our policy as covered by the agreement whereby the Board of Supervisors who are representing all the interests of tax payers within the County, are co-operating with the State and Federal Departments. I could not sanction any deviation from this policy with fairness to all concerned. The Board usually appoints a Committee with power to act with whom all business is transacted."

Recommendations

Your Committee recommends that the Board of Supervisors appropriate from funds not otherwise appropriated the sum of $1,256.86. Said appropriation to be expended for the purpose of eradication of Bovine Tuberculosis in McLean County and said appropriation to be placed with the unexpended balance of the $4,000 appropriation made by this Board of Supervisors at the September, 1922 meeting.

Your Committee further recommends that this Board of Supervisors instruct its Chairman and Clerk to sign (in triplicate) the Co-operative Agreement between the County of McLean and the Illinois State Department of Agriculture and the U. S. Department of Agriculture at such time as your Committee has selected an accredited veterinarian that is acceptable to both the State Department of Agriculture and the Inspector in charge of the U. S. Department of Agriculture.

Respectfully submitted,
Seth Stubblefield
William Vance
Louie E. Forman,
Chairman.

Which was adopted by a vote of 31 ayes.

To the Honorable, the Board and Members of the Board of Supervisors of McLean County, Illinois,

Now, herefore, be it resolved by said Board that said State Aid Road created by and through the resolution above referred to on June 12, 1922, be and the same is hereby abandoned.

Be it further resolved that the road commencing at the Northeast corner of Section 22, Cropsey township, McLean County, Illinois, thence South along the Section line between Sections 22 and 23 of said township to the road running east and west on the half section line between said Sections 22 and 23; thence Eastward along the half section line, as the road is now constructed and laid out, to the East line of Section 23, there to connect with the State Aid Road now improved by the said County of McLean, be and the same is hereby designated and created for State Aid Road as provided by Statute.

Mr. Ewins moved that from this date, no County patient be sent to any hospital in the County without the O. K. of the Supervisor of the Township, except in cases of emergency, and that the Clerk be instructed to transmit a copy of this motion to the County Physician, which was carried.

The report of Arthur Jones Superintendent of the County Farm was presented and on motion was ordered placed on file.

Mr. Martens moved that the rules be suspended, which was carried.

Mr. Martens presented the following resolution.

The Board of Supervisors of McLean County is cognizant of the many taxing bodies in the towns, villages, cities and townships, of the many purposes for which taxes are levied, the very high cost thereof, and especially cognizant of the aggregate amount of all of said taxes paid by the tax payers.

Whereas, the problems of improving and maintaining our public roads so as to meet the present day transportation requirements have become an important and pressing matter, there being a general and stirring interest manifested from day to day by the people of our County in those matters and,

Whereas, the County records of our county disclose that there has been for this year, assessed, levied, collected and now being expended for the improving and maintaining of a portion of the roads of our county, the sum of $446,473.66, said sum being levied by the several townships, and aside from and in addition to, the sum of probably $50,000.00, raised and expended by private, voluntary subscriptions for those purposes, and,

Whereas, it is realized that the present plans of improving and maintaining said roads, leave little, if anything, of a permanent asset from one year for the next. the improvement done each year being short-lived, and therefore may have to be done over again the ensuing year, and,

Whereas, it might be that through investigation and study of said matter of improving and maintaining said roads by this Board of Supervisors, would very probably lead to the development of valuable information whereby a better, unified and more lasting form of improving, together with a less expensive system of maintainence of said roads, might beinaugurated throughout the County, and,

Whereas, these problems are so vital to commerce and transportation facilities and to the tax payers of our County, and,

Whereas, it is pretty generally believed that such a thorough investi-

gation and study by the County Board would be most profitable to the tax payers of the County, and that there is a crying need therefore.

NOW, THEREFORE, BE IT RESOLVED:

That a Committee consisting of nine members of this Board, the chairman of this Board to be the chairman thereof, be by the chairman of this Board appointed.

And it shall be the duty of said Committee, when appointed, to conduct a complete investigation and make a thorough study:

First: Of the cost of our present system of road improvements and maintenances, and of the nature, extent and value of the same.

Second: To make a complete investigation and a thorough study of the cost, the nature and the kinds of improvements and maintenances used in other counties, all for the purpose of determining and reporting to this Board at earliest reasonable date hereafter, such, if any, improvement and saving of cost of the improving and maintaining of our said roads in the county.

Third: To report the Committee's recommendations, in writing, back to this County Board not later than the first day of the Regular December session of this Board, 1923.

Jacob Martens

Board of Supervisors, State of Illinios, McLean County, ss.

December meeting, A. D. 1923.

Mr. Chairman and Gentlemen of the Board of Supervisors: —

Your Committee on County Officers Accounts, to whom were referred the report of the S. E. Sims Audit Company, concerning the examination of the accounts of our several county officials for various periods of time, ending December 1, 1922 and August 6, 1923, made to this Board at its last September meeting, would now respectfully beg leave to make the following report on matters contained therein.

Account of P. A. Guthrie
County Clerk

The recapitulation of the account of Mr. Guthrie, County Clerk, contained in said report shows a net balance remaining in the hands of such official in the sum of $102.40.

Of this balance the sum of $72.65 consists of miscellaneous fees of varying nature shown by the fee books of the office to be belonging to sundry persons for services rendered in Court as witnesses, appraisers, fees advanced, etc., that have been collected by Mr. Guthrie during the period and still remain in his hands on December 1, 1922, as shown by such records.

While the records show such fees to be remaining in the hands of Mr. Guth

rie on said date, yet owing to the manner of keeping record of the disbursement of such fees, Your Committee are of the opinion that many of said items have been paid by Mr. Guthrie to the individuals entitled thereto and that if he now paid into the County Treasury the amount of such fees, such action would result in a double payment upon his part. which would manifestly be unfair.

Your Committee therefore recommend that Mr. Guthrie be directed to hold such amount in his hands subject to payment to those interested, if it should develop such items have not already been paid, and if in the future it should appear that any of such amounts have not been paid such items should then either be paid to the persons entitled thereto, or turned into the County Treasury as the law directs.

Concerning the remainder of such net charge, amounting to the sum of $29.75, Your Committee recommends that Mr. Guthrie be directed to pay such amount into the County Treasury taking the receipt of the County Treasurer therefore.

Account of Lester H. Martin State's Attorney.

Concerning this account, Your Committee recommended that Mr. Martin, in his next report, charge himself with the balance of five cents shown to be due from him, thereby balancing his account.

Your Committee further recommend that the County Treasurer establish in his office a special account to be known as "State's Attorney Fund," as suggested by the Auditor, and that all amounts received from the State's attorney on account of fees, fines and forfeitures received by him, and all payments on account of salary, assistant, or other legal expenses of such office, be entered in such account, as provided by law.

Account of Lee McReynolds Coroner

The report of the Auditor shows a balance of $32.00 due from Mr. McReynolds on account of overpayment made to him.

Your Committee recommend that Mr. McReynolds be now directed to pay such amount into the County Treasury, taking the receipt of the County Treasurer therefore.

Account of J. E. Morrison, Sheriff

The report of the Auditor shows the payment into the County Treasury by Mr. Morrison at the conclusion of such examination of t sum of $9,700.98, balancing in full his account for the time of office ended December 4, 1922.

Account of J. Huber Allen, Circuit Clerk and N. B. Carson, Recorder

The report of the Auditor shows both of the accounts balanced in full to December 1, 1922.

Account of B. C. Moore, County Superintendent of Schools

The report of the Auditor shows the Distribution Fund of this account balanced in full on August 6, 1923, the date of the close of the term of office of Mr. Moore, with a balance to the credit of the Institute Fund in the sum of $1,740.72 remaining in the hands of the County Treasurer on said date.

Account of William C. Means, County Treasurer and Ex Officio County Collector.

This account shows a balance in the hands of Mr. Means, as County Collector, of $25.66. due to the County Clerk on extension fees. which we recommend he now pay into the hands of the County Treasurer, taking his receipt therefor.

Concerning the remaining items Mentioned in the Auditor's report, Your Committee recommend as follows

The item of $10.00 Corporation Tax of 1918 due the Village of Heyworth, should be paid to the treasurer of such village.

The item of $8.00 overpayment to Yates Township on account of Farm Tax of 1919, should by such township be returned to Mr. Means.

The item of $1,314.09 School Tax of the City of Bloomington for the year 1920, paid in error to the City of Bloomington, should be returned by such city and paid over to the school

authorities, taking into consideration also in such readjustment the amount of commission deducted by the County Collector.

The item of $1.000.00 shown to be remaining due the Village of McLean on account of Corporation Tax for the year 1921, should by Mr. Means be paid over to the treasurer of such village, if such payment has not all ready been made.

Your Committee further recommended that the report of the Auditor be accepted and approved, and further, that inasmuch as this Board, by its action heretofore, has decided in favor of an annual audit of the accounts of all of our County Officials, that this Committee be authorized and directed to arrange for an examination of the accounts of our several County Officials for the year ending November 30 1923, and that it be authorized to employ the services of some competent auditor for such purpose.

All of which is respectfully submitted.

Wm. Vance, Geo. Morris, C. E. Graves, Clayton Ballinger, A. L. Hutson, Louie Forman, Dwight D. Moore, J. E. Smith, W. E. Rayburn.

—Committee on Accounts of Public Officers. Which was adopted.

Numerous claims against the County were presented and on motion were referred to the proper Committee.

Mr. Rayburn moved that the Public Building Committee be instructed to furnish the room for the Colored Soldiers at the McBarnes Memorial Building. Which was carried by a vote of 35 ayes and no nays.

Mr. Van Ness moved that the Board of Supervisors recommend that the McLean County Soldiers organization be allowed one member on the Board of Control at the Memorial Building Which was carried.

The following was presented:

To the Board of Supervisors of McLean County, Illinois:

Gentlemen:—Owing to sickness it is impossible for me to attend your meeting in person and express my wishes in regard to the management and expense of the Memorial Building, therefore I am taking this method of explaining to you my desire hoping same is sufficient.

In the formal planning for the management of the building it was Mr. McBarnes most ardent wish that the large room on the third floor of the building be known as an assembly room and not a dance hall of which the Legion boys have lately made of it, ignoring my desire to carry out Mr. McBarnes last wishes, which was made in the presence of Mr. Walter Arbogast, a member of the Building Committee and Mr. J. O. Bozarth also a member of the Building Committee and one of your Board.

This meeting in which these wishes were expressed was held at the home of Mr. Arbogast on October 12, 1921, just two weeks before his death and I am certain that both of these witnesses will uphold me in the same.

He also expressed his wishes that there be no pool playing in the Building on Sunday and this also has been violated from the very beginning.

The kitchen on the third floor has had free access to by the members of the Legion but the manager of the building, Mr. Ben Rhodes, has been demanding a fee from the other organizations for the use of the kitchen for which I do not approve of for I think it would be no more than right for each organization to pay small sum for the use of same thereby helping for the upkeep of it and by this it would look like they were all getting a square deal.

I am not expressing these opinions, meaning that I am against the Legion Boys enjoying the use of the Building, I do want them to make the use of it, but surely they can appreciate enough the gift to them from one who admired them thru their bravery in going into the service of their country by having enough respect for him if not for me by not using it for a dance hall and not playing pool in it on Sunday. I do not think that I am asking any thing out of reason and respect for

my late husband, John McBarnes.

Celia McBarnes.

Mr. Flesher moved that the said resolution of Mrs. McBarnes be received and spread upon the Records of this Board. Which was carried.

Mr. Martens moved that the Clerk be instructed to draw an order for $1600 instead of $1400 each month for the salary fund at the Fairview Sanitarium, said change to become effective as of December 1, 1923. Which was carried by a vote of 38 ayes and no nays.

The report of C. C. Baldwin, County Treasurer. was presented and on motion was referred to the Committee on Finance.

The Committee on Bovine Tuberculosis Eradication presented the following report:

To the Board of Supervsors of McLean County, Illinois:

Your Committee on Bovine Tuberculosis Eradication respectfully report that they have examined the claims presented to them and recommend that the Clerk issue orders on the County Treasurer to the several claimants for the amounts allowed as follows:

Whereas Ransom H. M. situated in the said County of McLean and State of Illinois and has been by himself and through his immediate grantors in the continuous, open, exclusive peaceable, actual, adverse and notorious possession of the same under claim and color of title acquired in good faith for more than fifty years last past, and that the same Ransom H. Roadman himself, under color of title, acquired in good faith by deed, has been in such possession since 1894 during which time he has paid all taxes and assessments on said property as the same has been levied and become due. And whereas

The public records of said McLean County disclose a continued chain of title from James S. Craig who acquired title from the United States of America by entry on November 6th, 1857 complete of record to the said Ransom H. Roadman. And whereas

It appears also that the premises herein described were included in the swamp land selection to the State of Illinois in the second selected lists on October 13, 1860, subsequent to the rights acquired from the United States of America by the said James S. Craig, remote grantor of the said Ransom H. Roadman.. And whereas

It appears from the record title that some irregularities or omissions were made by reason of which there is apparent interest in the first above described land in favor of the said County of McLean, which interest, if any, is only apparent and that the said County of McLean aforesaid has no legal or equitable title to the premises herein described belonging to the said Ransom H. We therefore recommend that the matter be dropped for the present.

Louie Foreman, Chairman.

Which was adopted by a vote of 33 ayes and no nays.

The following resolution was adopted:

To the Honorable Board of Supervisors of McLean County:

Your Committee on Bovine Tuberculosis Eradication begs leave to submit the following report of the work of Dr. P. L. Varble, the peterinarian in charge, for the past fourteen months beginning July 1, 1923.

Number of townships in which testing was done 21
Number of herds tested 2,225
Number of cattle tested 14,850
Number of reactors 92
Percentage of reactors .65 of 1 o|o
Total indemnity $5,905.00
Average indemnity per head .. $64.18

Retest

Number of herds 169
Number of cattle 2,033
Number of reactors 15

Expense

Traveling expenses $1,025.75
Drivers 849.00
Ear Tags and freight 146.35
Dr. Varble's salary 2,916.67

Total Expense $4,937.77

No reactors were found in the townships of Randolph, Lexington and Hudson.

The townships of Downs, Normal, White Oak and part of Gridley are yet to be tested. The committee has a tentative promise from Dr. J. J. Litner that he will furnish enough men without cost to the county to complete the testing within thirty days.

The popularity of this work is attested by the fact that only in a few cases have owners of herds declined to test and this was due to ignorance of the rules and regulations governing the testing. The appraisement of reactors has been very satisfactory to the owners.

The McLean County Farm Bureau has been an efficient factor in this work, taking care of all the clerical work and arranging for drivers, thus allowing the veterinarian to devote his time exclusively to testing.

Your committee takes this opportunity of commending the work of Dr. Varble. He is efficient, industrious and thoroughly reliable and has cooperated with this committee and with the Farm Bureau to the fullest extent.

Your committee recommends that our State Senator and Representatives be urged to support and to use their influence in the coming session of the State Legislature towards the passage of a bill making it compulsory for owners of all cattle to test for tuberculosis in counties that make appropriations for the control and eradication of Bovine tuberculosis.

A detail of testing by townships is attached hereto.

Respectfully submitted,

Louie Foreman, Chairman.

Which was adopted.

Committee on Reports of County Officers.

Which was adopted.

The Committee on County Officers presented the following report:

State of Illinois, County of McLean, ss.

Board of Supervisors, March meeting, A. D. 1925.

Mr. Chairman and members of the Board of Supervisors:

Gentlemen: Your Committee on Reports of County Offices, to whom was referred the report of the S. E. Sims Audit Company on their audit of the accounts of our various county officials, covering the year ended November 30, 1923, would beg leave to submit the following report on the matters before them.

The report of the auditor shows that the salary of Hon. W. C. Radliff, County Judge, viz: $2700.00 was paid in full to December 1, 1923; and that upon the salary of Hon. Jesse E. Hoffman, Judge of the Probate Court viz: $2300.00, there had been paid the sum of $2,299.92, showing a balance on salary of eight cents remaining due on December 1, 1923.

The report further shows that the accounts of P. A. Guthrie, County Clerk; J. Huber Allen, Clerk of the Circuit Court; and N. B. Carson, Recorder, had been found correct in every particular, and that settlement in full with the county by payment into the county treasury of all surplus fees remaining in the hands of each of such officials had been made to the close of the year on November 30, 1923.

The account of W. S. Rodman, Clerk of the Probate Court, contains corrections amounting to $129.00, which will be merged with his account for the year ended November 30, 1924, and there accounted for.

The account of J. E. Morrison, Sheriff, after some corrections, indicates a balance due the sheriff on December 1, 1923, amounting to the sum of $912.14, to be paid to him from earnings of the office subsequently collected.

The report further shows that on said date Mr. Morrison held in his hands received from the U. S. Government ror dieting Federal Prisoners, the sum of $1950.00, and for certain small miscellaneous receipts $3.20, making a total of $1953.20.

Your committee find that no part of the above has been paid into the county treasury by the sheriff and would recommend that the sheriff be now directed to pay such sum into the county treasury without delay, taking the receipt of the county

treasurer therefor, and further that inasmuch as the receipt of funds from such source constitute no part of the earnings of the office of the sheriff, such official be now directed by this Board that any further funds received by him from such source since October 6, 1923, be likewise paid into the county treasury without delay, and that all future receipts of funds by him from such source, be paid into the county treasury on the date of such receipt.

The account with Lee McReynolds, Coroner, shows a balance due from him in the sum of $66.05, a portion of which viz the sum of $32.00 dates from November 30, 1922.

Your committee recommends that Mr. McReynolds be now directed to pay such sum into the county treasury without delay, taking the receipt of the county treasurer therefor.

The account of the County Superintendent of Schools shows a balance of $1.00 due to Mrs. Dement, which will be adjusted in her subsequent account.

The account of Lester H. Martin, States Attorney, was closed as of February 5, 1924; and shows all earnings received by such official prior to said date to have been accounted for by Mr. Martin and paid into the county treasury.

The account of C. C. Baldwin, County Treasurer and Ex-Officio County Collector shows all funds received by such official during the year to have been fully and correctly accounted for by him; leaving a balance of $234,000.95, being the sum of all funds remaining in his hands at the close of business on November 30, 1923, with money and credits on hand to meet same in the sum of $234,018.86.

Your committee now recommends that the report of the auditor be accepted and placed on file, and that the County Clerk be and he is hereby directed to notify all persons herein directed to pay moneys into the county treasury to at once comply with the order of this board, and that upon the failure of any such person to comply with this order, that this committee be directed to place such demand in the hands of the State's Attorney for collection.

Your committee now recommends that they be authorized to employ Mr. S. E. Sims to audit the accounts of all of our county officials from the date of the close of this present report now under discussion to the close of business on November 30, 1924, and render to this Board a detailed, typewritten report thereon, his compensation for such service to be the sum of $800.00.

All of which is respectfully submitted.

Mr. Flesher moved that the rules be suspended and that the following resolution be presented.

Which was carried.

In-as-much as it has pleased Almighty God to take from our midst two of our most distinguished and public spirited citizens in the persons of Wolf Gresheim and Thomas Raycraft, both of whom have in times past served for many years as members of the board of Supervisors of McLean County, and have in other and divers ways rendered efficient service to us and the public in general.

Therefore be it resolved by this corporate body that we most sincerely regret that our two fellow citizens are no longer with us to counsel and advise as to the best interests of our community, but we are happy in the thought that their good deeds which live after them, do beckon us, and all our fellow men to greater and better things in behalf of our country.

Further be it resolved that a copy of these resolutions be spread on the records of this honorable body, and also sent to each of the bereaved families.

Which was adopted by a rising vote.

Section 2. That all poles and wires erected or placed under this grant shall be so located so as to not interfere unnecessarily with travel on such highways and shall be erected under the supervision of a representative of the Department of Public Works and Buildings of the State of Illinois, if on highways subject to the jurisdiction of such Department, and otherwise subject to the approval of the County Superintendent of Highways. All poles shall be so located so as not to interfere with or injure unnecessarily any pavement, drains, catch-basis or other like improvements; and in case any such pavement or other structure should be injured by the location of said poles, the Grantee shall forthwith repair the damage so caused. The Grantee shall not have the right to trim trees without the consent of the owner of the adjoining property within the limits of said highways where necessary. All poles shall be set in a straight line as far as possible,shall be not less than 30 feet in length, and all overhead wires shall, except where other structures prevent, be at least 18 feet above the level of the ground.

Section III. That when any highway upon which any poles of said Grantee are then located shall be improved by grading, paving or otherwise, and such improvement shall make necessary the resetting of any of said poles, Grantee shall make such necessary change of location of poles or other facilities at its own expense.

Section IV. The right herein granted for the use of any State Highway as defined in act entitled "An Act in Relation to State Highways," approved June 24, 1921, shall be subject to the consent and approval of Department of Public Works and Buildings of the State of Illinois and shall be subject to such conditions, restrictions and regulations as may be by such Department prescribed.

Mr. Rayburn moved that the rules be suspended.

Which was carried.

The following resolution was presented.

Whereas the business of McLean County administered by its Board of Supervisors annually amounts to immense sums of money, and

Whereas the tax paying public has repeatedly criticised the voting of large sums out of the County Treasury upon the presentation of bills not properly itemized, and

Whereas such criticism is justly deserved because of the pernicious system heretofore in vogue of presenting bills in lump sum to the Board for allowance without designation as to individual items going to make up such lump sum, and

Whereas such system of presentation is subject to gross abuse and is an imposition upon the Board of Supervisors and the tax paying public, and

Whereas it is the desire of the Board of Supervisors to obviate any inducement or invitation to extravagance in the voting of public funds in payment of bills not properly itemized so as to disclose their legality as public charges.

Be it resolved by the Board of Supervisors of McLean County, Illinois, in regular session assembled that in the future it will require a reasonable itemization of all bills presented to the Booard for alllowance and payment out of public funds and that no bill not so itemized shall hereafter be O. K.'d by any committee of the Board or approved by the Board as a whole.

To the honorable Chairman and the Board of Supervisors.

Appreciating the gravity of the situation in regard to the increase of rabies among dumb animals and the increasing danger to human beings in this and sixty-seven other counties in Illinois.

Whereas, we believe that the request of the state health Department is advisable, that is, that every dog in the county should be either muzzled, held in leash or vaccinated against rabies;

Whereas, there are already seven townships of this county infected with rabies, and in eight towns cases

have been reported, and other towns are known to be infected across the county line;

Whereas, as a long time elapses even under the best of care before a case of rabies can be known positively, thereby increasing the danger of the disease;

Whereas, the deadly nature of every case of rabies is well known;

And lastly whereas, there is no county board of health in McLean County which can take action in matters of this kind because the township organization of this county takes such matters out of the hands of the board of supervisors and places them under control of the township boards of health;

Therefore, be it resolved, that we, the Board of Supervisors of McLean County, assembled this 16th day of June, 1926, ask and urge that the health board of every township, made up of the supervisor, assessor and town clerk, to place upon their respective townships quarantines that shall incorporate the requests of the State Board of Health, these quarantines to include positive orders to all residents in these townships that their dogs shall either be held in leash, muzzled or vaccinated against rabies.

All of which is respectfully submitted this 15th day of June, 1926.

W. H. Flesher, Chairman.

Which was adopted by a vote of 40 ayes and no nays.

Mr. Birckelbaw moved that the rules be suspended.

Which was carried.

The following resolution was presented:

Whereas, a great agricultural depression has been prevalent over the Middle West for a peorod of years, and

Whereas, the farmer has been unsuccessful, either through individual effort or though organized action, to correct this difficulty; and

Whereas, our attention has been called to the fact that McLean County's farm lands have an assessed valuation higher by ten percent or more than the farm lands of equal value in neighboring Counties in the State, causing the farmers of McLean County to pay an unjust state tax; and

Whereas, we believe a reduction of ten percent in the valuation of farm lands in this County will not endanger the County's finances.

Therefore be it resolved, that we ask the Board of Review to give the matter their most earnest considertion, and should they find the statements as herein set forth to be true, to grant a reduction of not less than ten percent in the valuation of the farm lands of McLean County.

J. B. Smith

The Committee on Reports of County Officers presented the following Report:

State of Ilinois, McLean County ss.

Board of Supervisors, June meeting, 1926.

Mr. Chairman and gentlemen of the Board of Supervisors:—

Your Committee on Reports of County Officers, to whom was referred the reports of the Sims Audit Company, containing the statement of the accounts of our various County Officials for the year ending, November 30, 1925, beg leave to submit the following report to your body concerning the statements contained in such reports so referred to us.

The first two accounts contained in this report have to do with the office of the County Judge and that of the Judge of the Probate Court, and concerns only the amount paid to such officials from the County Treasury as salaries for the year ending November 30, 1925, which we find to have been paid in full.

In the office of P. A. Guthrie, County Clerk, we find the earnings of such office to have been $15,383.02; the receipts $14,577.47, and its disbursements $9,979.54, leaving a balance remaning in the hands of Mr. Guthrie, as County Clerk, the sum of $4,597.93; which amount was turned into the County Treasury

on March 22, 1926, thereby balancing his account in full.

The account of W. S. Radman, Clerk of the Probate Court, shows earnings in the sum of $9,270.25; receipts $8,922.26, and disbursements $5,690.22, with a balance remaining in the hands of Mr. Rodman of $3,232.04. In addition to the above Mr. Rodman has received of fees earned by P. A. Guthrie, County Clerk, the sum of $415.50. On November 30, 1924, there remaned in the hands of Mr. Rodman, as shown in the report of the former audit, the sum of $2,816.72; all of which comprises a total charge of $6,464.26. On February 14, 1926, Mr. Rodman paid into the County Treasury the sum of $6,455.37, leaving a balance remaining in his hands to be accounted for the sum of $8.89, which your Committee now recommend Mr. Rodman be directed to pay into the County Treasury, taking a receipt of the County Trearurer therefor.

The account of J. Huber Allen, Clerk of the Circuit Court, shows the earnings of his office to have been the sum of $7,291.66; its receipts $6,608.66, and disbursements in the sum of $6.064.90, leaving a balance of surplus fees for the year of $543.76. On October 29, 1925, Mr. Allen paid into the County Treasury the sum of $226.98, leaving remaining in his hands a balance of $316.78 which amount was turned into the County Treasury on April 20, 1926, thereby balancing his amount in full.

The account of the Recorder, N. B. Carson, show earning and receipts of that office for the year to have been the sum of $12,160.15, and its disbursements $8,295.00, leaving a balance of surplus fees for the year in the sum of $3,865.15; the total amount of which was paid into the County Treasury by Mr. Carson on March 5, 1926, thereby balancing his account in full.

The account of the Sheriff, J. E. Morrison, shows the earnings for the office for the year to have been the sum of $10,404.92; its receipts $9,278.49, and disbursements amounted to the sum of $8,826.02 with a balance of surplus fees for the year of $453.47. The report of the Auditor contains the description of a number of errors both in addition of reports and dockets, as well as items of receipts overlooked by the Sheriff in his two semi-annual reports comprising the business of the office for the year ending November 30, 1925. On November 30, 1924, the report of the former audit of this office showed a balance then remaining in the hands of the Sheriff to be accounted for in the sum of $1,963.53. To this account has been added the amount of the balance remaining in his hands on November 30, 1925, as shown in the reports of the Sheriff for such year and the amount of the various corrections contained in the Report of the Auditor, as shown on page 32 of his report, all of which comprises a total charge in the sum of $2,559.80 of surplus fees of the office remaining in the hands of the Sheriff at the close of business on November 30, 1925, which amount your committee now recommend Mr. Morrison be directed to pay into the County Treasury, taking a receipt of the County Treasurer therefor. In addition to the receipts of the office shown in the foregoing and supplemental reports of the Sheriff, shows that during the period of March 1925 to April 1926, inclusive, he has received from the U. S. Government for dieting Federal prisioners at the county jail, the sum of $6,093.00. On June 14, 1926, Mr. Morrison paid into the County Treasury of the above amount the sum of $3,000.00, leaving in his hands to be accounted for, of funds received from this source, the sum of $3,093.00. This sum your Committee now recommends Mr. Morrison be directed to pay into the County Treasury without delay, taking a receipt of the County Treasurer therefor.

The account of the Coroner, L. J. Shoemaker, shows that during the year he has held 111 inquests and investigations upon which the fees earned amounted to the sum of $1,802.00; the expenses of the office have been for salary, $900.00; for various expenses incurred, $517.19 a total of $1,417.19, the entire amount

of which has been paid to Mr. Shoemaker by warrant issued upon the County Treasurer. The Report of the Auditor commends upon the paying by Mr. Shoemaker into the County Treasury during the year the sum of $432.00, being fees collected by him. Your Committee desires to add their commendation thereto.

The account of the County Superintendent of Schools, Mrs. Nettie B. Dement, shows a balance remaining in her hands belonging to the Distributive Fund, on November 30, 1925, of $504.91, and in the Institute Fund a balance of $67.00. The expenses paid from the County Treasury during the year to which are totaled in the report of the Auditor, amount to the sum of $582.38.

The account of the State's Attorney covers the period beginning with the first Monday of December 1924, and extends to February first 1926, during the period the State's Attorney collected the sum of $6,200.50 the entire amount of which has been paid into the County Treasury. Salaries and expenses of the office paid from the Treasury during the year, are shown to be the sum of $6,961.-67, the total of which is given in the Report of the Auditor.

The account of C. C. Baldwin, County Treasurer, and ex-officio collector, consumes 20 pages of the Report of the Auditor, and consists of a number of schedules showing extentions and collections of taxes, the receipts and disbursements of the general county fund, and all of the various special funds and accounts held in the office. Your Committee do not deem it necessary to dwell on the detail of this account, it all being shown in the twenty pages of the Auditor's Report just referred to, but confine ourselves to the statement that such report shows the amount of net balance belonging to all funds remaining in the hands of Mr. Baldwin at the close of business on November 30, 1925, to have been the sum of $228,190.74. And in the further statement showing disposition of such funds on the date mentioned, the amount of net balance on deposit in the Corn Belt Bank in Bloomington is shown to have been the sum of $227,506.77, while the amount of cash in cash items held in the office on the same date was the sum of $683,97, comprising the total amount of $228,190.74 shown to have been remaining in his hands on said date.

Your Committee would further recommend that they be authorized and directed to employ some competent Auditor to examine the accounts of all County Officials down to the first of December next and make a detailed statement thereon to this Board. All of which is respectfully submitted.

Committee on Reports of County Officers.

Which was adopted.

Mr. Rayburn presented the following resolution:

To the honorable Board of Supervisors of McLean County:

Whereas, the law as it is governing the levy that may be made in the various townships of the State whereby a township may ask for county aid on bridges (1925 Statute, ch. 121, Road and Bridges, sec. 62) to be built in the several townships must be 50c on the One Hundred Dollars valuation, and may be 66c as the limit,

And, whereas, the county is required by law to lay out a designated road system which is to be maintained by the county, including the bridges and pay for them out of the levy the County Board makes,

And, whereas, the county has a designated road system embracing some 316 miles and must be maintained by the county and which may be added to as fast as we get the 316 miles taken care of until we have 520 miles of State Aid roads out of the 2200 miles of roads in this county;

And, whereas, we think it unjust to require the several townships to levy 50c on each one hundred dollars valuation in order that they may receive aid to build bridges when quite a few of the bridges across the streams that run through our county will be on State Aid roads and the State pavements, and the State and County will build them.

Therefore, be it resolved that we request our representatives in the next General Assembly to offer a bill to amend the law to read 30c on each one hundred dollars valuation in the several townships and not to exceed 40c, and to use every honorable means for its passage, to the end that we may have a county road system without the burden of taxation.

We would recommend that copy of these resolutions be sent to each representative.

W. E. Rayburn.

Whereas, there are approximately five thousand miles of Roads designated under the One Hundred Million Dollar Bond issue, and,

Whereas, there will be only sufficient money of the One Hundred Million Dollar Bond Issue to complete approximately thirty-two hundred miles of Road after completeing the Sixty Million Dollar Bond Issue, and,

The following resolution was presented.

Whereas: Experience has taught us that the present road system in our County does not meet the economis and social needs of our community. Our present system, outside of the main concrete highways, has proven to be very wasteful. Tax cords show that we are spending better than one-half million dollars per year on our secondary road system in this County and at best our present operations have proven to be just a temporary makeshift.

Now due to the wonderful developments that have been made in the last few years in the bulding of hard surfaced roads, and due to the gratifying results that were evidenced by the gravel survey that was partially made in this county, we believe the time is ripe for us to take some concerted action.

Therefore, we urgently recommend that the Board of Supervisors endorse a county plan for the building of approximately five hundred miles of gravel road and the same to be paid for by a bond issue of approximately one and one-half million dollars and that they cause a special election to be held some time within the very near future so that the people of this county may have the opportunity of expressing themselves through the ballot on this question.

We also recommend that the Board of Supervisors at their June meeting next week arrange to finish the survey of the county to locate additional gravel pits.

(Signed) W. L. Moore.

Mr. Wagner moved that the Public Buildings Committee be given authority to renew the contract for the purchase of light bulbs for the various buildings of the County.

Which was carried.

The following resolution was presented.

Whereas numerous tests have been made over McLean County for Gravel deposits, for the construction of hard surfaced roads, and whereas large deposits have been discovered in practically every Township in the County, which is suitable for such purpose on State Aid Roads, that have been or intended to b mapped out in this County, and whereas we now find that a sufficient amount of money can be raised by a County Levy, for building, maintaining and repairing of hard surfaced roads and bridges for same, for such a system without going to the expense of making a Bond issue. thereby saving the large cost of same to the tax payers of this County.

Therefore be it resolved, that this Board of Supervisors now in regular session make a levy of 20c on each one hundred dollars assessed valuation, of the taxable property of the County which would bring approximately $220,000.00 on an assessed value of $110,000,000.00.

This amount per year would be sufficient for the building, repairing and maintaining of such road system under a County Plan, and that the work of such a plan or system of roads and bridges, be under the supervision of the special road committee of this Board or road and bridge committee or a special committee appointed by the Board in conjunction with the Superintendent of Highways of this County, and that the above Committee have charge of designating what roads shall be laid out for hard surfacing gravel, and that they be instructed to advertise for bids, for the grading, drainage, hauling of material and maintaining such a hard road system,

Provided that each Township be alloted its proportionate share of money to be used for gravel in ratio to its milage of all but concrete roads as to the whole of the County.

Homer Caton

Mr. Wagner moved as an amendment that the last paragraph be stricken from the resolution.

Whereas a resolution was adopted at the September meeting of this Board, requesting that the Board of Directors of the Fairview Sanitorium do all in their power to retrench in the expenditure of funds for the maintenance of that institution,

And whereas the members of that Board have complied with that request in every way possible as we believe to do so, in cutting the cost of certain supplies, and in reorganizing that institution without injury to the good name of said institution, or lessening in any way, the good work that has been done in the past, or is now being done for the patients,

Therefore be it resolved that this Board of Supervisors do hereby highly commend the splendid work that the Board of Directors have done, and take this method of expressing our fullest confidence in their actions as we believe for the best interests of the citizens and taxpayers of this County,

The following report was presented:

To the honorable Board of Supervisors of McLean County, Illinois:

Pursuant to a motion made by J. W. Birckelbaw and carried, in reference to a communication from H. S. Ethel Et al, we the undersigned committee have made a thorough investigation of the facts relative to certain alleged relief being given to G. H. Tudor, Bert Hamilton and J. S. Brooks, as provided under an act to regulate the granting of relief to indigent War Veterans and their families. Approved May 25, 1907, as amended by an Act approved June 1st, 1927.

The above named G. H. Tudor, B. Hamilton and J. S. Brooks having made sworn statements that the relief alleged to have been given them as shown by the cancelled checks covering a period from 1919 to 1922 inclusive; was not received by them. In the case of G. H. Tuddor, merchandise and house rent alleged to have been paid for him when he did not need relief, did not ask for any and did not receive any. In the case of Bert Hamilton house rent is alleged to have been paid for him at a time when he lived in his own home. In the case of J. S. Brooks merchandise is alleged to have been received of dealers he had no knowledge of or did not patronize. The Commander and Quarter master of

the War Veterans Organization, issue relief checks whenever needed, no report is required of these, because it is a point of honor not to make public who gets relief thus leaving the way open for laxity or isregularity on the part of the above named officials. It is a matter of record that in 1926 C. W. Silvers paid back $97.00 into the County Treasury rent alleged to have been paid to H. M. Wait.

Your Committee upon due consideration of the above stated sworn and verbal statements, find that in our opinion certain Officials have been guilty of obtaining money or property under said Act by false pretense.

However, we find that the Statute of Limitation has run against each and every criminal charge believed to have been found by us and in consequence criminal prosecution cannot be had in any of these cases.

Dated Bloomington, Illinois, November 29th, 1927.
Signed:

J. M. Birckelbaw
G. Grant Smith
George H. Stichter
DeWitt T. Armstrong
S. Edgar Thomas.

The following report was presented:

To the Honorable Board of Supervisors:

In view of the widespread publicity which has been given during the past week to the affairs of the Fairview Sanitorium the Sanitorium Board of Directors, through the Board of Supervisors, desire to make public the following statement.

The work of the Managing Director of the Sanitorium is two-fold that of medical director, which work deals with the treatment of the patients as a physician and that of Superintendent which consists of the responsibility for the housekeeping, purchasing of supplies, the employing and directing of servants and nurses. The managing director is appointed by, and is responsible to, the Sanitorium Board, which

Board, in turn, is appointed by and is responsible to the County Board of Supervisors and serves without pay. The County Board of Supervisors levies the tax for maintaining the Sanitorium.

The managing Director, since the opening of the Institution has been employed from January 1st each year to January 1st of the next year. with no binding agreement on the part of either side that the connection could not be severed at any time. The reason which the Board gave for its decision was the inability of the present managing Director to co-opperate and this fact made the necessary retrenchment of expenditures impossible.

The Sanitorium Board has felt for the past year that for the present interests of the Sanitorium a re-organization was advisable. Last September the County Board of Supervisors passed a resolution requesting every County Institution to retrench in their expenses, naming Fairview in particular. The Sanitorium Board unanimously agreed that a re-organization was necessary and in accord with this plan notified the present Managing Director that she would not be re-employed after January 1st, 1928. This was done on the 20th day of September and at her request the matter was given no publicity whatsoever by the Board. Last week the Better Health Association passed a resolution requesting that a Committee be appointed from that organization to see if a closer co-operation might be worked out between the Medical Health Association, Better Health Association and the Sanitorium Board; such an investigation is welcomed by the Sanitorium Board. It is the opinion of the Sanitorium Board that the affair was given to emphasis in the first article appearing in the press last Friday. The information in this article was not given out either by the Sanitorium Board nor the Managing Director.

Mr. Fielding then presented the following resolution:

To the Honorable Chairman and Members of the Board of Supervisors of the County of McLean, Illinois:

Gentlemen:

WHEREAS, The Department of Public Works and Buildings of the State of Illinois requires the right of way for any portion of the State Wide system of Hard Roads to be furnished without cost to said department;

AND, WHEREAS,It has heretofore been the practice in this County to require the expense incident to obtain the right of way for any portion of the State wide system of hard roads in said County to be raised by subscription;

AND, WHEREAS, By reason of the unequal distribution of said system of hard roads throughout the county it is not equitable to require that the necessary funds to meet said expenses be raised by subscription, and, whereas, it is equally inequitable to require the township through which the portion of said system of hard roads is located to bear said expense;

AND, WHEREAS, The law permits the majority of the members of the Board of Supervisors of a County, in the exercise of their discretion, when in their judgment local interest warrants them in so doing, to aid the department of Public Works and Buildings either by donations of right of way or by money to pay for same;

AND, WHEREAS, It is the policy of the surrounding Counties and other Counties in this State to acquire by purchase or otherwise said right of ways and donate the same to the Department of Public Works and Buildings or to pay all costs and damages for land taken and damages to the land not taken as a result of the condemnation of said right of ways instituted by the Department of Public Works and Buildings under the Eminent Domain Act;

NOW THEREFORE, BE IT RESOLVED, That the county of McLean expend the necessary sums of money for right of ways for the State Wide System of Hard Roads hereafter required to be obtained in this County, under an Act entitled, "AN ACT IN RELATION TO THE CONSTRUCTION BY THE STATE OF ILLINOIS, OF DURABLE HARD SURFACED ROADS UPON PUBLIC HIGHWAYS OF THE STATE ALONG DESIGNATED ROUTES, AND THE PROVISION OF MEANS FOR THE PAYMENT OF THE COSTS THEREOF BY AN ISSUE OF BONDS OF THE STATE OF ILLINOIS," Approved June 29, 1923, in force July 1st 1923;

The following resolution as amended was then presented:

WHEREAS, there is $47,250 available from the State to be used in the construction of 15-d Roads; and

WHEREAS, the County Board has given the State Aid Roads leading from Arrowsmith to Route 9, Ellsworth to Route 9, Holder to Route 9, the privilege of using said $47,250 to build Section D Roads; and

WHEREAS, the surveying and plans and estimates on all three roads have been made and O.Ked by said County Board and also by the State Highway Department; and

WHEREAS, bids have been submitted to the County Board for said three roads, such bids amounting to $74,000 and since there is but $47,250 available to build these roads, it has been decided by the Townships of Arrowsmith, Dawson and Old Town, that the roads leading from Arrowsmith and Ellsworth to Route 9, to be built under the 15-d plan, and the road from Holder to Route 9 be built under County Plan of gravel.

Therefore, to complete all three roads as stated above, it will cost $60,000.

Since there is $47,250 coming from the State and $1300 from old State Aid fund, the Townships of Arrowsmith, Dawson and Old Town are contributing $8,250. We still lack the amount of $3200 to complete said roads; therefore, be it

RESOLVED, that the amount of $3200 to complete said roads be taken out of the moneys levied for maintenance of State Aid Roads for the year 1928; be it further

I would recommend that a committee of three be appointed to consult each and every Commissioner of Highways in McLean County, informing them that this County Board contemplates raising the Road and Bridge levy from eight cents to twenty cents on the $100 assessed valuation, for the purpose of gravelling State Aid Roads, in order that said Commissioners of Highways

may reduce their Road and Bridge levy to be made in September an amount equivalent to the twelve cents increase contemplated by this board, should said Commissioners so desire.

This will raise approximately $225,000 per year. If there is a four year program it would allow approximately $900,000 to be used on the State Aid Roads in McLean County.

Whereas, the Illinois legislature in 1929 passed an Act known as "The Motor Fuel Tax Act," and

Whereas, under such Act the revenues have greatly exceeded amounts anticipated, and

Whereas, under the provisions of the present Act there are two practices which work for the defeat of an equal distribution and a fair deal to local home government, namely, that the moneys allocated to the Counties is not paid in cash back to the counties until after the completion of the contracts, which contracts, plans and resolutions must be first approved by the State Department, and

Whereas, none of the moneys collected from such tax is allocated to the incorporated municipalities paying eighty-two per cent of the tax, and

Whereas, due to the delay and the allocation of funds numerous County projects have been held up, where if the moneys were paid, in cash, upon its receipt many men would have secured employment and the present depression greatly relieved, and

Whereas, the duly elected members of the Board of Supervisors of the various counties to be given the same power for the expenditures of gas tax moneys as they have in the expenditure of other moneys, and

Whereas, certain streets, forming a part of marked State routes have been worn out by State traffic and the abutting property owners have justly refused to bear the cost of reconditioning such streets, and

Whereas, any system which denies benefits to the greater majority of the tax paying citizens is unjust and unequitable, and

Whereas, the Illinois Municipal League intends to present, at the next session of the legislature, an amendment to the present gas tax Act which will provide for the distribution of this tax, one cent to the State, one cent to the counties, and one cent to the cities, and,

Whereas, the amendment will contain a provision for the payment of said moneys back, in cash, to the counties and cities, thus speeding public construction and relieving unemployment, and

Whereas, this amendment will restore to the County Boards of the various counties, local control over local roads,

Therefore, Be It Resolved By The Board of Supervisors of McLean County that this Board go on record as endorsing this amendment and urge the representatives from this Senatorial District to vote for such amendment.

Be It Further Resolved that a copy of this resolution be sent to the present members of the legislature from this district, and to Mayor Charles H. Green, of Aurora, Illinois, chairman of the gas tax committee of the Illinois Municipal League.

Mr. Cusey moved that the resolution be ammended and the rules suspended and a copy be sent to the State Senator and the two representatives. Which was carried.

The following resolution is in words and figures following to-wit:

During the last three years McLean County has done more to pull herself out of the mud by the building of good gravel roads than she has probably done through any like period of time. Most of the work has been accomplished through the efforts of township organization and townships are now comtemplating moves in road building that will add greatly to the present miles of gravel.

The suggestion has been advanced from different sources that the township as a road building unit should be abandoned and all roads be placed under county supervision. It is believed that a bill may be presented at the next session of the State Legislature abolishing the office of Township Highway Commissioner.

Therefore be it resolved, that this board urge our Senator and Representatives to do all in their power to preserve the township as a unit of County government and to keep the highways directly under the jurisdiction of the township so far as reasonably possible.

Homer Caton
